MAYOR'S INAUGURAL ADDRESS

Ladies and Gentlemen:

There is no occasion this evening to congratulate the members of the 1950 Council upon their election or re-election, but I can congratulate you upon your survival of a heavy year in municipal life. I hope that you have found the year 1949 an interesting and a valuable one. Those who were new members of Council have had an opportunity to appreciate the problems of our city and to develop ideas as to how they should be met. The older members of Council have brought their experience to newer and bigger problems. Certainly, it seems to me that just as the city has grown physically so have its problems become larger and more difficult.

At the Inaugural Meeting a year ago I listed five matters which should be given attention in 1949. They were, the reorganization of the Board of Works, the matter of the relationship of the suburban areas to the City, sewage disposal facilities, the physical layout of the City Hall and the ever constant need of watching our municipal expenditures.

I am pleased to say that every one of these matters has been taken up and pushed forward. We have been fortunate in obtaining Mr. Currie, our Commissioner of Works, to take charge of the Works Department and I believe every member of Council can already see the improvement in that department. Naturally, he has not yet had time to complete the process of reorganizing the Works Department but we are confident that he has it well in hand.

With respect to the suburban areas, I may say that representatives of the City and the adjoining areas have met and discussed in a general way the mutual problems before us. We hope that in 1950 definite conclusions will be developed.

The matter of sewage disposal has been taken up actively and I have been assured that this month we shall have from our Consulting Engineers a report on which Council will be asked to take action and make decisions. I believe that this project must get under way in the year 1950. I am now convinced that the sewage disposal facilities should be for Kingston and its district and that it is too large a project to be done at one time. Accordingly, it should be done in stages and I am of the opinion that the large interceptor sewers on both sides of the city can and should be under construction in the year 1950.

The matter of arranging the physical space at the City Hall has been partially carried out, and the results are obvious to all. But the job is not yet finished. I believe that we should renovate this Council Chamber and its adjoining rooms, and provide much more adequate accommodation for the Police Department. The facilities of our Fire Department should also be given careful thought.

The financial position of the City of Kingston is still sound but our debt is growing and the reduction which will occur in the mill rate this year will be entirely owing to the reassessment, and must not be an excuse for relaxing the rein on expenditures. Few things are as disturbing to property owners as changes in assessment but we hope that now that the job has been done, it will work out to the general satisfaction and will result in greater equity. I believe that Council should be extremely careful in its expenditures during the coming year and should do only those things which are strictly necessary and desirable from the view point of the community. I hope that the amount of money to be raised by the city in 1950 will not exceed that of 1949. But in the last analysis Council expenditures always reflect the demands of the community.

I believe that any debt contracted in 1950 should be for as short a term as possible. It sometimes seems that works which will last for years should be covered by long-term debentures. But the more experience I have in municipal government the more I am convinced that shorter maturities are desirable. I think this is particularly true where capital expenditures may be facing the community for many years to come. A short term debt is a much more flexible arrangement.

A project to which the Council will have to give careful attention this year is that of the Kingston Community Memorial Health and Recreation Centre. As you know the Finance Committee has made certain proposals to the Centre Committee which they have found acceptable. These proposals, which all members of Council have received, will come forward formally to Council for full discussion and consideration. I believe that this is one of the most important matters facing the City of Kingston.

Another project, in which I am deeply interested, is that of adequate street lighting. During 1949, the Public Utilities Commission, at my request, reviewed its street lighting system and tried out some new installations in the west end, and some further trial installations are to be made on the north side of the city. I believe that it will be feasible to re-arrange our entire street lighting system so that it will give tremendously better results with but little increased cost. I propose to raise this matter with the Utilities Commission, which has been most co-operative at all times, and I hope this Council will give the project its full support.

Now that the Public Utilities Commission is going into the manufacture of propane gas, there will be facilities available on their premises which we hope to obtain for use as a municipal garage. And we trust that before the year is out, we will see all the Board of Works vehicles housed under one roof and one control. It will be the first time in the history of the city, that anything of this kind has been completely accomplished.

I trust that the members of Council will have a successful year and that the spirit of harmony which existed in 1949 will continue to prevail. I would like also to take this opportunity of expressing to the Public Utilities Commission, the Board of Commissioners of Police, the Boards of Education, the Planning Boards, the Board of Health and the Library Board our appreciation for their continued co-operation and help. We owe much to the citizens who serve their community by acting on these various boards. There are very few cities in which a better spirit exists among Council, Boards and Commissions.

May I conclude by thanking the members of Council for their support and co-operation. My personal relations with the members of Council have been the friendliest and I look forward to a year productive of good government for the City of Kingston.

To the Mayor and Members of City Council:

Gentlemen:—The Committee on Administration and Legislation begs leave to report and recommend as follows:—

1. That the eligible voters in the 1950 Voters' List be listed by street numbers within subdivisions and wards instead of by alphabetical listings as heretofor. 3. That whereas Clause 1 of City Council Report No. 83-1937 makes provision for the payment of an honorarium under certain circumstances to employees who have been in the service of the City for at least twenty years, that it be interpreted to apply in the case of an employee who may die while employed by the Corporation.

Dick, Assessment Consultant, who was initially employed on May 1st, 1917 and died on November 21st, 1949 is considered entitled be paid to his widow, Mrs. W. D. Dick, and that said honorarium be in the amount of $3,000.00 as computed in accordance with Clause 1 of City Council Report No. 83-1937. The payment of said honorarium to be in such instalments as may be determined by Mrs. W. D. Dick but shall not, in any year, exceed $2,500.00 so as not to contravene the provisions of Section 265 (1) of The Municipal Act.

Further that provision for said honorarium be made in the 1950 Budget.

5. That Ald. B. W. Trumpour and Ald. W. E. Weller be reappointed as the City Council's representatives on the directorate of the Kingston Chamber of Commerce for the year 1950.

Mr. W. J. Coyle
Prof. R. G. H. Smails

For a one year term (1950)

Ald. J. A. Compton

8. That, in accordance with Clauses 5 and 6 of City Council Report No. 91—1949 By-law No. 24 of the Revised By-laws of the City of Kingston 1938—a By-law for regulating traffic in the Highways of the City of Kingston—be amended to provide for the following:—

(a) "NO PARKING" on the south side of Queen Street between Clergy and Division Streets during the months of December, January, February and March inclusive;

(b) The establishment of Johnson Street between Bagot Street and the Palace Road as a "Through" Street.

Further that the amending By-law be presented to and given three readings at the next regular meeting of the City Council.

9. That, as recommended by the City Solicitor and the Board of Works, the claim dated October 8th, 1949 of Mr. F. Funder, 130 Stephen Street for damages as a result of injuries received by falling in an excavation on Concession Street, be settled in the amount of $43.30.

10. That Section 1 of Part I of By-law No. 1 of the Revised By-laws of the City of Kingston 1938—a By-law to Regulate the Proceedings of the Municipal Council of the Corporation of the City of Kingston—be amended as follows:

(a) The City Council shall meet on the second and fourth Mondays of each month. Council meetings during the months of June, July, August and September shall be held on the fourth Monday of each month or at such other time as Council may by resolution indicate unless such Monday shall be a public holiday according to law, when the Council shall meet on the following evening. The meetings shall be held at 8 o'clock unless otherwise ordered by special motion.

Ald. Tugwood requested that in view of the narrow streets in Frontenac Ward that the Board of Works give consideration to the removal of the snow from one side of the street in that Ward. Ald. Ald. Casterton expressed the opinion that Ald. Compton's letter to the Whig-Standard in respect to Churchill

Park, was an injustice to City Council.

Ald. Compton objected to the handling of the petition regarding Churchill Park, outlining past practices with regard to the handling of petitions. In the discussion that followed Ald. Tugwood and Casterton outlined parallel circumstances with respect to the treatment of similar petitions. Ald. Ald. Trumpour expressed dissatisfaction with the service of the City Bus Company and recommended that action be taken with a view to having the service increased to ten minute intervals and that the daily service be extended one hour. The Mayor referred the matter to the Committee on Administration and Legislation.

CITY OF KINGSTON
BUDGET FOR THE YEAR 1950

March 27th, 1950

To the Mayor and Members of City Council:

Gentlemen:—The Finance Committee begs leave to present for the consideration of City Council the Budget for the year 1950.

A total tax rate of 37.8 mills for the ensuing year is recommended. This rate is comprised of a general rate of 36 mills, inclusive of the rate for school purposes, and a garbage and ash collection rate of 1.8 mills.

The year 1950 might be described as a "transition" year, in that the revised assessment which took place in 1949 became effective as the base of the 1950 mill rates.

Because of the foregoing circumstance your Committee set as its objective, the amount of tax money that would have been raised by applying the mill rates for 1949 computed on the assessment for the year 1949—plus, on the same assessment value basis, the normal increase to the assessment resulting from building operations in 1949 as shown here — under:—

General Rate

1949 Assessment	$ 24,664,320.00	
Building Operations Increase	578,890.00	
		$25,243,210.00

Garbage and Ash Collection Rate

1949 Assessment	$ 30,096,070.00	
Building Operations Increase	469,375.00	
		30,565,445.00

The foregoing assessments calculated on the 1949 rates of 49.75 mills and 2.75 mills amount to $1,225,849.70 and $84,054.97 respectively, a gross total of $1,339,904.67.

The assessment used in determining the mill rates for 1950 for general purposes is $34,863,745.00 and for garbage and ash collection $43,337,930.00. The application of the tax rates of 36 mills and 1.8 mills on these assessments amounts to $1,255,094.82 and $78,008.27 respectively, a total of $1,333,103.09. It will therefore be noted that the actual amount asked for from taxes for 1950 is $6,801.58 less than the 1949 mill rates as applied on what would have been the assessments had the same basis prevailed in 1950.

The greatest care was exercised in analysing the appropriations requested by the various committees of Council and every possible reduction was made consistent with the obligation of maintaining essential services of the municipality. In the opinion of the Committee, the Budget is a reasonable one and represents a judgment somewhere between extreme economy and the numerous demands for expenditure which had to be cut down. Every committee has a larger appropriation in 1950 than it had (or spent) in 1949 and the committees should be able to carry on their work well. It is to be hoped that every committee will use its funds carefully as it is not expected that extra revenues will be as plentiful in 1950 as they were in 1949.

For your information, we are presenting herewith a table showing "Where the Tax Payer's Dollar Goes:"—

FINANCE AND ACCOUNTS REPORT NO. 33

Kingston, April 17th, 1950

To the Mayor and Members of City Council:

Gentlemen:—The Committee on Finance and Accounts begs leave to report and recommend as follows:—

1. That, in concurrence with the provisions of Clause 1 of City Council Report No. 18, 1950, the firm of Gore & Storrie be engaged as the Consulting Engineers of the City of Kingston, on the following terms and conditions as given by Messrs. Gore and Storrie:

"Our fees for carrying out the work referred to in our report of February 6th, 1950 and in a communication from the City Clerk, dated March 15, 1950 would be as follows:—

	Percentage		
	Plans and Specifications	Supervision of Construction	Total
Lake and Harbour Front intercepters, force main to Sewage Treatment Plant and Pumping Stations on main intercepters and force main	3½	1½	5
Sewage Treatment Plant including 12 months' supervision of operation	4	2	6

In addition the City will have to pay the actual cost of all travelling expenses, blue printing of plans, mimeographing specifications and long distance telephone calls.

Should the Engineers be called upon to furnish Resident Engineers and Inspectors during the period of construction same will be paid for at actual cost to the Engineers plus 25 per cent.

The engineering fees are to be paid on the actual cost of construction excluding land purchase, right-of-way, legal fees, engineering fees and expenses, Resident Engineers and Inspectors and all items of a similar nature.

Should the preparation of plans and specifications be proceeded with for the Lake and Harbour Front intercepters and pumping stations then our fee for same will be limited to 3 per cent of the estimated cost of construction in the event of the construction work not being proceeded with.

Attention is drawn to Section 7 on page 19 of the report wherein we recommend that the sum of $10,000.00 be authorized in making the necessary borings in the harbour in order to obtain all essential information relative to the rock and the nature of the harbour bottom. This is required in order to make sure of our ground in locating the pumping station on the west side of the harbour and the route of the force main across the harbour to the Sewage Treatment Plant.

The above fees are submitted on the understanding that the City will furnish us with whatever assistance is required in the way of ascertaining the levels of existing sewers which may necessitate a certain amount of excavation work, which we assume will be carried out by the City forces;

that the said Consulting Engineers be authorized to proceed with the plans and specifications for the intercepter sewers and appurtenant works; that a By-law be presented to Council authorizing the Mayor and City Clerk to sign a contract with Messrs. Gore and Storrie on terms and conditions as authorized by this clause; and that a By-law be presented to Council to authorize the borrowing upon debentures of the City of Kingston of the sum of $60,000 to provide for the following: (rate of interest — 3%: term — ten years):—

Estimated fee for making required borings across the Cataraqui River	—	10,000.00
Estimated cost of work to be performed by the City	—	5,000.00 to 10,000.00

Further that the Report and Plans be submitted to the Department of Health, Ontario for its approval. (WITHDRAWN)

2. That, as recommended by the Committee on Parks and Property, the tender of Thos. L. Grooms in the amounts indicated hereunder, for alterations to the Council Chamber, Committee Room and Mayor's Office, in accordance with plans and specifications prepared by Messrs. Alterations to Mayor's office as set out in plans and specifications prepared by Messrs. Drever & Smith —	1,656.00
	$10,188.00

3. That a by-law be presented to authorize the borrowing upon debentures of the City of Kingston of the sum of $10,000 to provide for the financing of the foregoing alterations (rate of interest 2¼%: term — three years) and pending the issuance and sale of the debentures, $10,188.00 be appropriated from the "Reserve for Capital Expenditures" for the payment of the work.

4. WHEREAS it has been found advisable to purchase supplies in bulk quantities, for use in a subsequent year, the prepaying of insurance, etc.;

AND WHEREAS the purchasing of either services or supplies for use during a subsequent period requires appropriation of funds within a current period;

AND WHEREAS if such purchases were charged to the current period an overstatement of expenses would result therefrom;

6. That payment of $990.00 be made to Geo. A. Wakeling & Sons for illuminating and engrossing 22 pages (36 to 57) in the "Book of Remembrance" at $45.00 per page, said expenditure to be charged to the appropriation Finance and Accounts "Extraordinary — Book of Remembrance".

Council consented to the withdrawal of Clause 1 of Report No. 33 of the Committee on Finance and Accounts in order that a maximum overall fee for the services enumerated therein might be determined, so that representatives of Messrs. Gore and Storrie might be present at a meeting of Council to discuss the matter and that a report might be submitted to Council on the information already available regarding the soundings and borings in the Cataraqui River.

Council consented to the withholding of Clause 12 of Report No. 33 of the Committee on Finance and Accounts in order that this matter might be given further consideration.

Moved by Ald. Crawford, seconded by Ald. Trumpour (5) that Report No. 33 of the Committee on Finance and Accounts, as amended, be received and adopted.—Carried on the following division: For (18), Against (0).

UNFINISHED BUSINESS

Ald. Foley referred to the purchase of uniforms for the Fire Department from a tenderer who did not submit the lowest price but the quality of whose material was considered superior and informed the Council that he had had the material analyzed and it was found to be a better product.

Ald. Tugwood referred to the Gore and Storrie Report on Sewage Disposal and expressed the opinion that the citizens and taxpayers were fortunate in having Ald. Wright in Council and suggested that he should be called in on discussions concerning the report in order that his knowledge might be utilized. The Mayor indicated that an opportunity would be afforded Ald. Wright to discuss the matter with the Consulting Engineers.

Ald. Cunningham pointed out that Ontario Street and the extension of Gore Street were in bad condition and asked that the Board of Works look at them. He mentioned that the street leading to Pyke Salvage Company needed attention. Ald. Wright remarked that the excavations for the intercepter sewers in connection with the proposed sewage disposal scheme would be made in this area and he did not think the Board of Works would be justified in spending any money on these streets except as a temporary measure.

Ald. Casterton drew attention to the abutment on Ontario Street which is landscaped each year by the Horticultural Society and pointed out that the cement is falling off and needed attention.

Ald. Shurtleff remarked that Westdale Avenue and the area near the Hay Market around the location of the drinking fountain were in very bad condition.

Ald. Cunningham asked that the Committee on Traffic and Safety give consideration to permitting parking on only one side of Maitland Street as it would be difficult to get the fire engines down the street to the Yacht Club in case of a fire.

UNFINISHED BUSINESS

Ald. Reid stated that it had been reported to him that the contractor for the Kingston Community Memorial Health and Recreation Centre was not employing the specified classes and grades of lumber in the roof of the building. Ald. Wright indicated that he had received a similar report and requested that the Architect be directed to report on this matter. The Mayor signified that he would take the matter up with the Architect.

Ald. Smith and Ald. Tugwood referred to the condition of the roadway on Concession Street. Ald. Weller, in response to the petition received from residents of Concession Street and vicinity regarding the condition of the roadway, reviewed the circumstances contributing to the delay in paving the street. The Mayor reported that he anticipated that the approval of the Municipal Board for the projected work would be forthcoming in the next few days. Ald. Compton referred to an editorial of some six months previous and stated that it was unfortunate that the onus with regard to Concession Street had been erroneously placed on the City. Ald. Wright suggested that consideration be given to the placing of an 80 foot roadway or at least a 66-foot roadway in Concession Street in view of the volume of traffic in lieu of the roadway which is proposed as a temporary expedient. Ald. Wright suggested that furtherance of the projected works be held in abeyance pending finalization of proposed annexation proceedings, and that consideration be given to consolidating the present road surface by constant repair. Ald. Byron signified that he disagreed with Ald. Wright with respect to the discontinuance of projected works and suggested that the matter be proceeded with on proposed basis of a temporary pavement.

Ald. Trumpour referred to an editorial regarding the proposed disposition of the Department of Justice property east of the Palace Road and suggested reopening of negotiations on the part of the Corporation. The Mayor indicated that representations had been made and assured Ald. Trumpour that the matter was receiving constant attention.

UNFINISHED BUSINESS

Alderman Tugwood asked the Chairman of the Administration and Legislation Committee for a statement on the action of the Administration Committee with respect to the petition alleging that a nuisance was created by the operation of a veterinary clinic by Dr. W. J. Nuttall on Division Street.

In reply Ald. Crawford stated that the members of the Administration Committee had decided that it would be advisable to make an inspection of the clinic before taking any action on the petition. Ald. Cunningham presented the following statement on behalf of the Social Welfare Committee in reply to criticism about the condition of the buildings at Rideaucrest by the Grand Jury:—

(a) The interior of this building was redecorated throughout during the course of the extensive alterations and renovations that were made during the year 1948 and the results of such repainting attracted the very favorable comment of the Provincial Supervisor of Homes for the Aged; (b) certain repainting jobs, including the floors of the bath rooms and laundry, were subsequently done; (c) the front of the exterior of the main building was repainted last Fall, and the completion of the repainting of this building, for which provision was made in the 1950 Budget, now is being proceeded with by the contractor; (d) the Committee currently is considering what future use may be made of the out-buildings, which are in need of re-painting.

Ald. Smith suggested that one of the methods used in resurfacing the streets this year had resulted in an accumulation of small stones in the gutters and he suggested that the Board of Works should have these stones removed.

Ald. McCullough stated that he had noticed a report in the Kingston Whig-Standard that certain members of the Board of Works Committee were dissatisfied with the type of finish on the sidewalks on Princess Street that had been constructed this year. He felt that the criticism of the work was completely justified.

Ald. Chown suggested that the Parks Committee in addition to planting elms should give consideration to the planting of evergreens such as the Scotch pine so that in the Fall of the year there would be trees still in foliage.

Ald. Casterton stated that he would be pleased to discuss this suggestion with the members of the Parks and Property Committee.

Mayor Curtis stated that he desired to express the sympathy of City Council to Ald. Schuett on the death of his father, Albert J. Schuett.

Referring to the ceremonies of the laying of the corner stone of the Kingston Community Memorial Centre on October 6th by the Governor-General, Mayor Curtis stated that the manner in which they had been conducted was a matter of satisfaction to all concerned. He wished to express his thanks and appreciation to all who had participated in the ceremony and especially to Ald. John Cunningham who had been responsible for the planning of the programme. The Mayor reported that the Governor-General presented him on behalf of the City of Kingston with the trowel that had been used to lay the corner stone and that it would be put on public display.

Ald. Casterton suggested that the Board of Works Committee should give consideration to resurfacing the sidewalk on Clergy Street West. This walk is in bad condition and one lady had suffered from a second fall on it.

Ald. Crawford enquired if the lease between the Corporation and Millard and Lumb for a portion of Place d'Armes had been finalized. The Mayor reported the lease had been signed.

UNFINISHED BUSINESS

Ald. McCullough stated that in spite of several representations in Council by himself there was still no satisfactory concrete walk at the North-west Corner of Barrie and Princess Streets.

In reply Ald. Weller said that the Board of Works appropriation for repairs to walks was almost expended with the result that the Board of Works was unable to undertake any repairs of an extensive nature.

Ald. Earl stated that from time to time she was receiving complaints about the alleged smoke nuisance at Military Headquarters and she thought that it was desirable that publicity should be given to the fact that City Council was taking steps to alleviate smoke nuisances. First of all the Corporation was setting a good example by installing an oil burner in the City Hall, secondly, a preliminary survey had been made of the Kingston situation and finally a Smoke Abatement Committee consisting of certain public spirited citizens under the chairmanship of Ald. Black had been formed to implement the recommendations of the Survey.

Ald. Chown stated that he was disappointed with the lack of support in the Parks Committee for his suggestion that a percentage of evergreens should be planted in the City parks. Ald. Trumpour explained that there would be very little additional tree planting for the balance of this year and that Ald. Chown's suggestion could be considered by next year's Committee.

Ald. Wright urged that the work on the Council Chamber and on the Mayor's Office should be completed without further delay. He also requested that a report be supplied to Council showing the cost to the Corporation for assuming the local improvements in the Housing Enterprise Area.

Ald. Tugwood enquired if any progress was being made in obtaining a new station for Kingston. Mayor Curtis replied that the matter was being discussed with the proper authorities.

Ald. Crawford asked for an expression of opinion from the members of Council on the type of employee salary adjustment that they would be prepared to support. He explained that the Administration Committee was faced with the problem of recommending some adjustment in salary schedules to compensate employees for the rising cost of living. In addition the Corporation was finding it impossible to obtain new employees at the current salary rates with the result that new employees were being taken on at rates that created dissatisfaction among other employees who had years of service. Finally there was the factor to be considered that some of the employees in responsible positions could obtain higher salaries in other fields and unless salary adjustments were made the Corporation might lose their services. The Administration Committee wished an expression of opinion from the members of Council as a guide for preparation of a report to Council on suitable salary adjustments.

Ald. Byron stated that salary adjustments were overdue. Already the Corporation had lost more than one valuable employee because of the low salary rates.

Kingston, November 6th, 1950.

To the Mayor and Members of City Council:

Gentlemen:—The Committee on Administration and Legislation begs leave to report and recommend as follows:—

1. That whereas the proposal to permit Sunday Sports under the provisions of the Lords Day (Ontario) Act, 1950, is a radical departure from a long established condition of community living in Kingston and is a proposal on which a great many electors have strong and sincere convictions;

And whereas no petition of electors such as is contemplated under the said Act, has been submitted to indicate any demand from a substantial portion of the electorate that this matter be submitted to a vote of the electors;

And whereas the time remaining before the municipal election is not sufficient to permit a fair opportunity for the development of public opinion in the matter;

And whereas no undue delay is necessarily involved for the proponents of the proposal, if the question is not submitted at the time of the municipal election;

That the question of public games and sports on the Lord's Day be not submitted to a vote of the electors at the time of the forthcoming municipal election.

UNFINISHED BUSINESS

In reply to an inquiry by Ald. Tugwood it was stated by Ald. Weller that the Board of Works trucks were now being kept at the Municipal Garage on the Public Utilities property, and being serviced by the Public Utilities.

Ald. Wright raised the matter of objections to the annexation proceedings and questioned if the area applied for might not have to be reduced. He also referred to the recommendation of the Acting City Clerk to the Administration Committee that a special assistant should be employed to assist with the additional work arising from the proposed annexation and questioned if, in view of the ability and competence of the two professors on City Council — the Chairman of Administration and the Mayor, and the city officials, the City's case could not be presented without such help.

The Mayor thanked Ald. Wright for his commendation and said that the preparation of the City's case was now in the hands of the solicitor and that the City would be guided by his advice and that of the officials. But the Council knew it could count on the Mayor always doing his duty.

9. It is agreed that no municipal taxes, rates or charges shall be levied or charged against the Corporation by the City while the lands are owned by the Corporation in fee simple, and while no agreement for sale, lease or other contract in respect of the title or any part of the title of the said lands has been entered into with any third party except in respect of services installed as the result of a petition which is signed by the Provincial Minister.

10. The Corporation agrees that it will dedicate streets and lanes and upon such dedication ownership of "the services" located within the boundaries of such streets and lanes shall vest in the City as of the date of such dedication, or upon the registration of the said plan any services constructed subsequent to such dedication shall vest upon completion in the City, and the City shall for a period of fifteen years after such vesting maintain and keep such works in good condition and repair, provided that no responsibility shall be incurred by the City for the maintenance and repair of sewer laterals between the main and the street line of each lot.

11. The Corporation agrees that in the sub-division of the lands it will dedicate to the City, and up to a limit of 5 percent of the total area of the lands, those areas required by the City as open space for park, playground, educational or other public purposes, provided that should the City request the dedication of a greater area, then the City will pay to the Corporation a sum of money equivalent to the cost to the Corporation of the acquisition of such additional area.

12. The Corporation undertakes to provide such easements as the City may require for such sewers, water mains and

power service lines including street lighting lines as are necessary for the purposes of the project.

15. (1) The City will forthwith upon annexation of the lands pass a by-law restricting the lands to residential and institutional use and to such commercial use necessary adequately to serve a residential area.

(2) Every such by-law and every amendment thereto and re-enactment thereof shall be approved by the Provincial Minister before the enactment thereof, until such a time as the Corporation has sold all the lots to third parties.

16. The Provincial Minister undertakes that special legislation will be introduced authorizing and empowering the City to enter into this agreement and to carry out the terms thereof and declaring that it shall be binding upon the City and the ratepayers thereof.
